Key Vocabulary

Continent	A large area of land joined together. There are 7 continents in the world.
Equator	An imaginary line around the middle of a planet.
North Pole	The northernmost point on the earth located in the Arctic Ocean.
South Pole	The southernmost point on earth located in Southern or Antarctic Ocean.
Rain stick	A long, hollow tube partially filled with small pebbles or beans.
Climate	Climate is the variation of weather conditions over long periods of time.

What makes animals different?

Could a lion survive in the arctic?
